Experience

Dec. 2023 - Jan. 2024
Felhanout | Ben Aknoun, Algiers
Lead Backend Developer | Remote

As Lead Backend Developer, I led the design and implementation of scalable solutions, guided the development team, and optimized database performance. My role focused on architecting efficient systems and addressing technical challenges.

Tech : Git - Laravel - PHP - MySQL - HTML - CSS - AWS - API Development and Documentation - PHPUnit - Third Party API's (Google, Facebook, Apple, Elastic Email)

April. 2021 - July. 2022
Cerist | Ben Aknoun, Algiers
AI Engineer | Master's Thesis Project

Developed a deep learning predictive models using Python and TensorFlow to estimate the future citation impact of scientific articles at CERIST research center. Collaborated with researchers to integrate these models into research evaluation processes, involving feature engineering and large dataset processing.

Tech : Git - Python - TensorFlow - Pandas - Scikit-learn - PyPy - NumPy

Sep. 2020 - April. 2022
sihaclub.com
Backend Developer | Freelance

As a Backend Developer for a fitness and online coaching platform, I designed and implemented scalable solutions, optimized database performance, and collaborated with cross-functional teams to enhance system functionality. Additionally, I played a key role in DevOps, overseeing deployment processes and ensuring the seamless and responsive functioning of the platform, contributing to an optimal user experience.

Tech : Git - Laravel - PHP - MySQL - HTML - CSS - API Development and Documentation - Third Party API's (Google, Facebook, Paypal, Spoonacular, Elastic Email)

May. 2020 - Sep. 2021
jexury.com
Backend Developer | Freelance

As a Backend Developer for an online jewelry sales platform, I created and implemented scalable solutions, improved database performance, and worked with cross-functional teams to enhance system functionality. Additionally, I played a key role in DevOps, overseeing deployment processes and ensuring the seamless and responsive functioning of the platform, contributing to an optimal user experience.

Tech : Git - Laravel - PHP - MySQL - HTML - CSS - API Development and Documentation - Third Party API's (Google, Facebook, OpenWeatherMap)

Experience

Jan. 2018 - May. 2018
Cerist I Ben Aknoun, Algiers
Software Engineer

Performed comprehensive analysis of SNDL platform log files, utilizing Java and JavaFX for UI development. Extracted valuable insights, demonstrating strong analytical skills.

Tech : Git - Java - JavaFX - SceneBuilder - JFoenix - MySQL
